

Order information

Audi partners in Germany

Audi partners in Germany can order CDs using the Audi shopping basket.

International

Outside Germany, you can order compilations via ADOS.

Notes on compatibility

The compilations can only be played back on devices (CD/DVD stand-alone player or laptop) that can read MP3 CDs. Corresponding devices are usually marked with an MP3 logo printed on the front or a note in the operating instructions.

Notes on registering with the collecting society

The audio recordings on these CDs must only be used for public playback in association with the Audi brand. Music playback must be registered with the relevant collecting society beforehand and a fee is payable to this society. Please ensure that you contact the relevant institution in your country in good time.
